Solving a conflict made easy, without ending up in court!

Why Mediation?

Mediation is a fast, accessible and cost-effective conflict resolution service, in areas such as family, work, interpersonal relationships, consumers' rights and many others. It is a legally valid intervention - a convenient alternative to the traditional justice system.

Parties in conflict are empowered to find their own solutions to a dispute, while taking all individual needs and interests into account.

*Who is Mediation open to? **Anyone!***

Learn more about Mediation and how to avail yourself of its benefits!
